

DR. GUILLERMO HIGA
GENERAL AND BARIATRIC SURGEON

Medical (non-surgical) Weight Loss Program

This program is tailored to help those candidates who do not qualify for surgery or who want to lose weight on their own with the guidance and support of medical professionals.

Our non-surgical program includes the following:

- An individualized assessment, complete weight loss plan, and regular follow up appointments with one of our providers
- An individualized assessment, complete nutrition plan, and regular follow up appointments with our Registered Dietician
- Weekly weight and blood pressure checks
- Two body composition scans, one at the beginning of the program and one at the end when you've reached your desired results
- Monthly support group sessions

Our program fee is \$300 for the year, due at time of consultation. Medication Injections are \$350 a month due at the beginning of each month. Non-refundable.

Signing this letter is acknowledging that Higa Bariatrics is hereby authorized to debit your account in said amount for payment of our Medical (non-surgical) Weight Loss Program.
